

# SecureAware Skins

- *Is the look and feel of your user interfaces important to your organisation?*
- *Would you like the systems your employees use to have the same homogenous graphic identity as determined by your company?*

Customising the look and feel of SecureAware is simple. The discreet black, white and grey default colour choice can be tailored to match your company's graphic identity and you can even opt to use your individual company-specific font.

## Business benefits:

- ✓ Flexibility: You choose colours, fonts etc.
- ✓ Integration: By using a homogenous graphic look and feel, users will experience a heightened sense of integration
- ✓ Consistency: Your IT Security Handbook will be presented with the same colour scheme and fonts as used in other company IT systems
- ✓ Enhanced graphic identity – also on your security intranet
- ✓ A component of SecureAware – relied upon world-wide
- ✓ Peace of mind from a trusted ISO27001 certified supplier

A guide to customising the user interface is included along with SecureAware API– or why not let Neupart do it for you? Alterations are carried out using StyleSheets and image files. The entire HTML interface (i.e. everything shown on a user's browser) can be changed. A menu option makes it simple to return to the default Neupart skin. If upgrading at a later date to include newly released functionalities, some corrective work may be required to re-establish your chosen scheme.

Neupart, an ISO 27001 certified company, is the leading provider of IT GRC management solutions. Neupart helps enterprises manage complex regulatory mandates and risks with an all-in-one platform for compliance, best practices and awareness. Whether you need to comply with PCI, ISO27000 or manage evolving business risks, Neupart allows you to respond effectively and "future proof" your compliance program. Denmark-based Neupart has subsidiaries in Germany and USA and has representatives across the world with a customer portfolio covering a wide range of private enterprises and governmental agencies.
